ERIE, Sept. D .- The convention reassembled this morning and proceeded to numinations. A motion to adjourn until the committee on platform had reported was lost, and dilatory motions were made. (The committee on resolu-tions stand 25 to 24 dn ourgoncy reso volume and denounces contraction policy of substituting national bank curroney and abolishing legal tenders. At 1 ofelook adjourned till 3 p. m.

On roussembling, the following plat-form was reported by the committee: 1st., The principles onunciated by to a Kontucky paper. 2d. The wide spread depression in every branch of business shows that the ignorant and wicked leaders of the ropublican party should be checked and removed from the blaces they have long disgraced.

3d. Retrenchment in the number of offices and economy in salaries, to the Mosher had the child hidden up the river somewhere. He didn't know end that the serious embarrassment exsting may be relieved.

Other resolutions follow, but are for the most part local in character. That on finance is as follows:

The contraction of money, currency and circulating medium made by tho republican party and the further contraction proposed by it, with a view to be made and kept equal to the wants of trade living; the restoration of logal tenders to par in gold, by promoting the industries of the people, the policy of abolishing logal tenders and giving national banks power to furnish current ey, will intercase the power of an al-really dangerous monopoly; the retire-ment of all bank circulation and legal tenders issued, instead of which the government should have made local tenders receivable for all public duties. except where coin is specified in the

contract. The extinction of the present national bunks and the establishment instead of a system of free banks of discount and doposit under such regulations as the states respectively may prescribe, and no paper money except such as may be issued directly by and upon the faith of the federal government, affording, practically, currency based on gold and ilver and other property of the whole people of the country, "The nomineon of the convention are pledged to apply all moreys in the kinking fund to the reduction of the public debt, and money due the government by corporations or individuals is to be promptly collected and paid into the trensury, and in no manner, directly or the Ropublican leaders for extravagant expenditures, extertionate use of salaics of public officers, for their oppresdve, unjart and deceptive system of axations upon finance and currency for their continuance of meampeten and corrupt men in office, and for their general mismanagement of both the state and general governments.

A motion to adopt the resolutions as whole, without debate, was made and 'spirited dobate followed

Lowder, of Lobigh, proposed as was hooted down, but, after much confusion, he was allowed to make a speech. He spoke for hard money as a good old Democratic destrine. He therefore take a decisive stand for hard money that it be non-commital. Hughes, chairman of the convention,

defended the platform as reported, and

Lowder, amid great confusion, again took the floor, and moved to substitute for sections 7, 8, 9 and 10 the resolution in the last year's plutform, but did not succeed in obtaining a recognition. The resolutions were then adopted as reported.

The nominations being in order, eighteen names were presented for Gov-orner. The first ballet resulted in Big; ler receiving 26 votes, Barr 48, Fox 27. Ross 18, Noyes 31, Picolette 11, North 20, Morton 17, Pershing and Monaghon 13.

The tenth ballot resulted as follows: Bigler 54, Barr 29, Ross 68, Nojes 30, Pershing 10, Picolletto 7, Jenks 2,

When the result of the tenth ballot had been announced, Bigler's name was PERSHING NOMINATED FOR withdrawn in favor of Pershing, and the voting proceeded with the following result: Ross 95, Noyes 5, Pershing

At the conclusion of the first ballet for State Treasurer, the chairman declared the House adjourned, amid wild shouts and cries of "No, no." He took his hat and was hurrying away when McMullen, of Philadelphia, and others, demanded his return amid shouts and threats of violence. The chairman was compelled to return. Order was restored and the ballot proceeded in, with Aragno and Noble shead at 2 p m.

In the third ballot Picollette was nominated for State Treasurer and the convention adjourned.

SAN FRANCISCO, Sept. 9.—The meeting at Union Hall, last night was largely attended, and addresses were delivered unitaly devoted to attacks on the Bullatin and Call, and to denuncia tign of the associated press for sending the so called talse statements concern-the Bank of California and Rulston. Resolutions were adopted condemning hose papers and calling on the peopl Some of the appeties were realist of the appeties were realist and formation of the appeties were realist for the served. Frequent expressions, of dissent were given by the audience, and the resolutions passed were evidently not the sense of the whole assembly.

PHEADERPHA, Sopt. 9.—In the Wostervelt trial to-day, II. Hartman, i Now York barkeopers tostified that Westervelt rend to him from a news paper, the story of the abduction of Charlie Ross and said that he could tell some of the parties implicated in it. After the killing at Bay Rudge the witness accompanied Westervelt' to Brooklyn. During the trip they conversed about Charlin Ross. Wester-velt said Musher and Douglas were the parties, if they were arrested the child would not live three days. The witpess asked Westervelt where the child was, whother hidden in a hut, cive, or where, "I'll never tell you," responded Westervelt. Later Westervelt said

SPECIE payments, say the millationists, can never be brought about by legislation. This is true in one sense and falso in another. It is true that Congress cannot by its cuactment bring the groundacks to par with gold and make resumption a fixed fact by a mere time for it. The cia of suspended specio payments has nover been brought to an end in any country without legislation, and it cannot be done here. It. might as well be said that a man's outstanding promissory notes would pay themselves without any effort on his part to redoom them or without his even fixing a time when he would be gin to redoem them; There never can be resumption without propulatory legislation, - Indianapoles John nat.

Now comes the Indianapolis Senti ret and says of the national banks, "an abolition of this whole system of bank ing appears to be one of the nedessitie of the hour." That is plain talk, and simply means that the leading Demo oratic journal of Indiana, controlled by Gov. The country was never as prospercus as under the national banking system. There are five entries for this race, all of the best stock in the

Casualties at the Fair Ground .-- On Wednesday a horse belonging to Mr. Batchelder, which was hitched to s sulky, got restive in the ring and threw himself upon the shafts, breaking them and throwing the driver violently to the ground. In trying to get control of the animal he was for a short time in danger of being badly hurt, but finally got the house under control without being injured. Also, on yesterday afternoon, Mr. B. H. Swain brought a young horse into the ring for exhibition, which became restive and uncontrollable. The animal reared and pitched, throwing himself about in a furious manner, and falling upon the shafts of the sulky to which he was hitched, broke then badly, throwing Mr. Swain, who was scated in the vehicle, to the ground. In attempting to hold his horse Mr. S. became entangled in the reins, and the animal getting control of affairs, started off at a furious run, dragging the sulky and his owner after him, the latter being flat upon his back. Everybody expected for a few seconds that Mr. Swain would be bully hurt, if not killed, but as good luck would have it, he got loose from the reins, and the horse went kiting over him. He finally leaped the fence and made his way to the stalls on the north side of the ground, where he was captured and freed from the broken sulky. The anfinal was badly cut on one hind leg, but if properly cared for, will probably come out all right.
